I. PLAN GOAL

The goal of this Redevelopment Plan is to subject the properties governed by this plan to the provisions of the Local Redevelopment and Housing Law (LRHL) and to permit the Mayor and Council to engage in discussion and contract with the owners of the properties and/or prospective redevelopers of the properties in a manner which encourages and promotes the long-term economic well-being and overall health, safety, and welfare of the Town.

II. INTRODUCTION

Properties included within this redevelopment plan are located throughout downtown Westfield. Downtown Westfield represents the economic heart of the community and is also geographically located at the center of the Town. The downtown area contains a mix of commercial enterprises including retail sales and services, restaurants, and a hotel. The Westfield Train Station, the station stop with the highest ridership along NJ Transit’s Raritan Valley Line, is a focal point downtown; and, stops for local and regional bus service exist.

The Town Planning Board completed and adopted a Master Plan Reexamination Report by resolution dated January 6, 2020. The Reexamination was the product of a significant public participation process including online engagement, surveys, input of a steering committee, stakeholder visioning workshops, and public workshops. According to the results of the reexamination survey, 67% of the respondents view new office, retail, or mixed-use in the downtown very favorably. In addition, 75% of the respondents say that the Town should encourage or strongly encourage redevelopment and attraction of major employers (particularly in high tech industries), while restoring Westfield’s older homes. The Reexamination Report emphasizes the importance of downtown areas to a community and includes a series of recommendations in regard to economic development and land use which the community should follow. The following recommendations for the downtown are found in the Reexamination Report:

- Appropriate mixed-use development on underutilized properties, such as municipal parking lots.
- Encourage the enhancement of existing as well as creation of new commercial space
- A parking plan that takes into consideration integrated community structured parking integrated into future development.
- The creation of high tech and medical/wellness office space to support the downtown viability and introduce a new tax ratable that is not single-family development.
- Creating connectivity between the North and South-side of our commercial downtown.
- The creation of public spaces for residents and visitors.
- The embracement of arts and culture as a draw to our community.
- The creation and implementation of a streetscape improvement plan.
- Architectural design guidelines and standards for future development.

The Town can use the provisions contained within the LRHL, including contracting or entering into redeveloper agreements with owners or prospective developers for specific redevelopment projects, to make these recommendations a reality.

As a first step in the redevelopment process, the Mayor and Council directed the Planning Board to undertake preliminary investigations of various properties throughout downtown Westfield to determine if those properties qualify as areas in need of redevelopment. After the preparation of the required preliminary investigation reports and duly noticed public hearings, the Planning Board found that all of the properties studied did in fact qualify. The Mayor and Council have since designated the properties as areas in need of redevelopment. Those properties are amongst those which are governed by this redevelopment plan. Those properties are as follows:
In addition to those properties designated as areas in need of redevelopment, the Mayor and Council have also designated the Town of Westfield as an area in need of rehabilitation. Town Planner Donald Sammet and Town Engineer Kris McAloon prepared a report finding that the entirety of the Town met the rehabilitation criteria of: (a) a majority of water and sewer infrastructure is at least 50 years old and is in need of repair or substantial maintenance and (b) more than half of the housing stock is at least 50 years old. This report was referred to the Planning Board for its review and comment, which in turn recommended that the Town be delineated as an area in need of rehabilitation. This was accomplished by adoption by the Mayor and Council of Resolution No. 225-2020 on October 13, 2020.

The property listed below, as part of the designated area in need of rehabilitation, is also governed by the provisions contained within this redevelopment plan. This property is incorporated for the sole purpose of permitting a preview center which will be used to facilitate community input regarding the redevelopment of the area.

Because these properties have been declared areas in need of redevelopment or areas in need of rehabilitation, they are eligible for inclusion within this Redevelopment Plan. Their inclusion within this Redevelopment Plan enables the Town to designate redeveloper(s) for the properties for projects that advance the Town Master Plan’s goals and objectives, and those recommendations for the downtown found in the Reexamination Report.

A map identifying the properties identified in the preceding tables is included on the following page.
III. REQUIRED REDEVELOPMENT PLAN COMPONENTS

This redevelopment plan has been prepared in accordance with section 7 of the LRHL, which provides that “no redevelopment project shall be undertaken or carried out except in accordance with a redevelopment plan adopted by ordinance of the municipal governing body.” Pursuant to the LRHL, the Redevelopment Plan shall include an outline for the planning, development, redevelopment or rehabilitation of the project area sufficient to indicate:

1. The Redevelopment Plan’s relationship to definite local objectives as to appropriate land uses, density of population and improved traffic and public transportation, public utilities, recreational and community facilities and other public improvements.

2. Proposed land uses and building requirements in the project area.

3. Adequate provision for the temporary and permanent relocation, as necessary, of residents in the project area, including an estimate of the extent to which decent, safe and sanitary dwelling units affordable to displaced residents will be available to them in the existing local housing market.

4. An identification of any property within the area, which is proposed to be acquired in accordance with the Redevelopment Plan.

5. Any significant relationship of the Redevelopment Plan to the master plans of contiguous municipalities; the master plan of the county in which the municipality is located; and the State Development and Redevelopment Plan adopted pursuant to the State Planning Act, N.J.S.A. 52:18A-186, et seq.

6. As of the date of the adoption of the resolution finding the area to be in need of redevelopment, an inventory of all housing units affordable to low and moderate income households, as defined pursuant to N.J.S.A. 52:27D-304, that are to be removed as a result of implementation of the redevelopment plan, whether as a result of subsidies or market conditions, listed by affordability level, number of bedrooms, and tenure.

7. A plan for the provision, through new construction or substantial rehabilitation of one comparable, affordable replacement housing unit for each affordable housing unit that has been occupied at any time within the last 18 months, that is subject to affordability controls and that is identified as to be removed as a result of implementation of the redevelopment plan.

8. Proposed locations for zero-emissions vehicle fueling and charging infrastructure within the project area in a manner that appropriately connects with an essential public charging network.

The Redevelopment Plan shall describe its relationship to pertinent municipal development regulations. The Redevelopment Plan shall supersede applicable provisions of the development regulations of the municipality or constitute an overlay zoning district within the redevelopment area.

All provisions of the Redevelopment Plan shall be either substantially consistent with the municipal master plan or designed to effectuate the master plan.

IV. REDEVELOPMENT AREA DESCRIPTION

The properties included within this redevelopment plan are scattered throughout downtown Westfield. For ease of description, they consist of four groupings of properties, each group being based upon those included within separate preliminary investigation reports or its inclusion in the rehabilitation area report.

As an incentive for the establishment of a preview center at this location, no off-street parking shall be required for the preview center use within existing floor area of the building.

Electric Vehicle Charging

Electric vehicle charging infrastructure shall be provided in accordance with the requirements of the Municipal Land Use Law and Town Land Use Ordinance.

Affordable Housing

Any multi-family residential development, including the residential portion of a mixed-use project, to be developed at six (6) or more dwelling units per acre and yielding five (5) or more units shall provide an affordable housing set-aside of fifteen (15) percent if the affordable units are to be offered for rent and twenty (20) percent if the affordable units are to be offered for sale.

No subdivision shall be permitted or approved so as to avoid compliance with this requirement.
All affordable units created pursuant to this section must comply with all applicable regulations of the affordable housing regulations of Article 23 of the Land Use Ordinance and the New Jersey Uniform Housing Affordability Controls (UHAC), N.J.A.C. 5:80-26.1 et seq. and COAH regulations N.J.A.C. 5:93-1 et seq., with the exception that in lieu of ten (10) percent of affordable units in rental projects being required to be at least thirty-five (35) percent of median income, thirteen (13) percent of affordable units in such projects shall be required to be at thirty (30) percent of median income.

When calculating the set-aside requirement for a particular site, if the imposition of the required set-aside requirement results in a fractional unit, the requirement shall be rounded to the next whole number. For example, in the case of a fifteen- (15) unit multifamily rental development, a total of three (3) affordable units would be required (15 units x 15 percent set-aside requirement = 2.25 affordable units required, which is rounded to three (3) affordable units required).

This affordable housing set-aside shall not apply to any developments containing four (4) or fewer dwelling units.

All variance, subdivision, and site plan approvals of qualifying residential developments shall be conditioned upon compliance with these requirements.

VII. RELATIONSHIP TO LOCAL OBJECTIVES

Town Master Plan

The Town Planning Board amended the Master Plan on April 6, 2020 through adoption of a “Vision, Guiding Principles, and Goals and Objectives” section. The catalyst for this amendment rests with the recommendations contained within the recently completed Master Plan Reexamination Report. The amendment replaced the Goals and Objectives Section of the 2002 Master Plan.

The following details the relevant goals, objectives and recommendations from the Town’s Master Plan that will be furthered by a program of redevelopment pursuant to this Redevelopment Plan for the properties:

1. To provide adequate light, air and open space by establishing, administering and enforcing bulk, density and design standards that are appropriate for the various zones and uses in the community.

5. To maintain and enhance the viability of the various business districts by: (a) encouraging an appropriate mix of land uses that will complement one another and meet the retail and service needs of the Town; (b) promoting a desirable visual environment and preserving the small-town atmosphere in the business districts; (c) providing or requiring the provision of sufficient numbers of parking and loading spaces in the appropriate locations to serve the needs of the general public; (d) promoting a desirable pedestrian environment in the downtown business district; and (e) discouraging automobile-only oriented development in the central business district, including “strip malls”; and (f) offering placemaking opportunities, including public art, open space, pedestrian nodes, and community gathering spaces.

8. To provide a wide range of housing types and densities in a manner that maintains and is compatible with the predominant existing development pattern of single family detached dwelling units through: (a) Various zone districts that permit single-family detached, two-family and single-family attached, and multi-family dwellings where appropriate; (b) Density standards that reflect existing neighborhood conditions, where appropriate, as well as the needs of various housing types; and (c) Rezoning in appropriate locations, for mixed use or residential uses, establishing densities within walking distance of the CBD- Central Business District and NJ Transit railroad stations.

9. To address the need of affordable housing for the local and regional population of low- and moderate-income persons by
establishing various zone districts that encourage the provision of affordable housing, where appropriate.

13. To address underutilized or vacant sites, encourage redevelopment or rehabilitation where properties meet those standards set forth in the LRHL.

This Redevelopment Plan is substantially consistent with the goals of the Master Plan and further a number of the objectives that the Town has set for land use and redevelopment.

VIII. RELATIONSHIP TO OTHER PLANS

Master Plans of Contiguous Municipalities

The Town of Westfield borders the municipalities of Springfield, Cranford, Garwood, Clark, Scotch Plains and Mountainside. This Redevelopment Plan is consistent with the Master Plans of these contiguous municipalities, each of which contain goals related to the promotion of the economic health of their commercial areas. Also, the property regulated by this Redevelopment Plan is located near the geographic center of the Town removed from municipal borders, and therefore, it is not anticipated that new construction in the Redevelopment Area will have any significant impact on adjoining municipalities other than to have a generally positive impact via the improvement of a well-established downtown within Union County.

Union County Master Plan

This Redevelopment Plan is consistent with the Union County Master Plan. Goals and objectives of the 1998 Union County Master Plan supported by this Redevelopment Plan include:

Housing Goal: Promote the provision of a broad range of housing opportunities for all income levels and household types by encouraging the maintenance or rehabilitation of the existing housing stock and through the construction of new housing units.

Housing Objective: Encourage municipalities to zone for a variety of housing types and densities.

Housing Objective: Encourage the construction of multi-family apartment and townhouse units in either rental, condominium or fee simple ownership for all age groups, household types and income levels.

Housing Objective: Encourage the expansion of existing public, non-profit and inclusionary low-income and senior housing opportunities.

Development Goal: To facilitate the development of Union County by directing new growth to environmentally suitable areas that can be provided with essential infrastructure and support facilities and to revitalize the urban centers and corridors within the County.

Development Objective: Identify land areas suitable for residential, commercial and industrial development sufficient to accommodate reasonable projections for future needs.

Development Objective: Promote new development and redevelopment that is consistent and compatible with existing settlement patterns.

Transportation/Circulation Goal: To promote the development of an improved and balanced, multi-modal transportation system that integrates and links highway, bus, rail, air, waterborne transport systems and pedestrian and bicycle facilities.

Transportation/Circulation Objective: Provide coordinated development of land use density/intensity and transportation systems that will support and sustain regional transportation systems for rail and bus service.
The State Development and Redevelopment Plan

The State Development and Redevelopment Plan (SDRP) was prepared and adopted by the State Planning Commission according to the requirements of the State Planning Act of 1985 to serve as an instrument of state policy to guide state agencies and local government in the exercise of governmental powers regarding planning, infrastructure investment and other public actions and initiatives that affect and support economic growth and development in the state. The SDRP is not itself a regulation but a statement of State policy that has been adopted by the State Planning Commission to guide State, regional and local agencies in the exercise of their statutory authority.

The SDRP uses a policy map to differentiate areas from highest growth to lowest growth based on information, such as natural resources, sewer availability, etc. These differentiations are called planning areas, which range from PA-1 Metropolitan, to PA-8 State Park. The entirety of the Town of Westfield is located within the Metropolitan Planning Area (PA1), as per the State Plan Policy Map found in the SDRP.

For areas located in the Metropolitan Planning Area (PA1), the State Plan’s intention is to:

- Provide for much of the state’s future redevelopment;
- Revitalize cities and towns;
- Promote growth in compact forms;
- Stabilize older suburbs;
- Redesign areas of sprawl; and
- Protect the character of existing stable communities.

In order to support the intent of the Metropolitan Planning Area, development and redevelopment activities need to be consistent with the traditional urban fabric—intensities sufficient to support transit, a range of uses broad enough to encourage activity beyond the traditional workday, efficient use of infrastructure, and physical design features that enhance public safety, encourage pedestrian activity and reduce dependency on the automobile. This Plan is consistent with these principles and they are applied herein.

IX. RELOCATION

No residential uses exist on the properties, whether affordable to low or moderate income households or otherwise, and therefore no residential relocation will be necessary to carry out the provisions of this Redevelopment Plan. Any existing commercial enterprises on the properties are not anticipated to require relocation. If circumstances dictate that relocation is required, such relocation will be carried out in accordance with applicable law.

X. PROPERTIES TO BE ACQUIRED

No properties are intended to be acquired by the Town to carry out the provisions of this Redevelopment Plan.

XI. ADMINISTRATIVE AND PROCEDURAL REQUIREMENTS

Selection of Redeveloper

In order to assure that the vision of this Redevelopment Plan will be successfully implemented in an effective and timely way so as to promptly achieve the public purpose goals of the Plan, the Mayor and Council, acting as the Redevelopment Entity, shall designate the redeveloper(s) for any redevelopment project on the Property.

The intent of this section of the Redevelopment Plan is to set forth the procedural standards to guide redeveloper selection. The following provisions regarding redevelopment are hereby included in connection with the implementation of this Redevelopment Plan and the selection of a redeveloper(s) and shall apply notwithstanding the provisions of any zoning or building ordinance or other regulations to the contrary:
1. The redeveloper, its successor or assigns shall develop the property in accordance with the uses and building requirements specified in this Redevelopment Plan.

2. Until the required improvements are completed and a Certificate of Completion is issued by the Mayor and Council, acting as the Redevelopment Entity, the redeveloper covenants provided for in N.J.S.A. 40A:12A-9 and imposed in any Redevelopment Agreement, lease, deed or other instrument shall remain in full force and effect.

3. The redevelopment agreement(s) shall contain provisions to assure the timely construction of the redevelopment project, the qualifications, financial capability and financial guarantees of the redeveloper(s) and any other provisions to assure the successful completion of the project.

4. The extent of the designated redeveloper(s) responsibility for any installation or upgrade of infrastructure will be outlined in the Redevelopment Agreement with the Town. Infrastructure may include items such as gas, electric, water, sanitary and storm sewers, telecommunications, recreation or open space, streets, curbs, sidewalks, street lighting, street trees, structured parking or other improvements.

5. All infrastructure improvements shall comply with applicable local, state and federal law and regulations.

6. In addition to the provision of the infrastructure items set forth herein, the Redevelopment Agreement may provide that the redeveloper(s) will agree to provide amenities, benefits, fees and payments in addition to those authorized under the Municipal Land Use Law.

Redevelopment Agreement Required

No development or redevelopment shall take place or be the subject of any application to the Planning Board unless a redeveloper is designated for the property or properties by resolution of the Mayor and Council and a redevelopment agreement concerning the redevelopment between the Town and the redeveloper is executed.

Notwithstanding the above, only a redevelopment agreement shall be required for property at 74-76 Elm Street, Block 3106, Lot 5 to serve as a preview center (as defined herein) on the ground floor of the building. The redevelopment agreement for the preview center, or its attachments, shall at a minimum:

- Specify the permitted duration of the use.
- Include clear default and remedy provisions to be enacted if the use persists beyond its permitted duration.
- Include a narrative detailing the use. This narrative shall include information about the nature of the use, hours of operation, and specific activities to be undertaken within the space occupied by the use.
- Conceptual floor plans showing allocation of space.
- Conceptual signage plan showing compliance with the Westfield Land Use Ordinance, Article 16, Exterior Signs.

Deviations

The Planning Board may grant deviations from the regulations contained within this Redevelopment Plan, subject to the scope and limitations set forth below:

- Whenever, by (a) reason of exceptional narrowness, shallowness or shape of a specific piece of property, or (b) by reason of exceptional topographic conditions or physical features uniquely affecting a specific piece of property, or (c) by reason of an extraordinary and exceptional situation uniquely affecting a specific piece of property or the structures lawfully existing thereon, the strict application of any regulation contained herein would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardship upon, the developer of such property,
• Whenever, in an application relating to a specific piece of property the purposes of this Plan would be advanced by a deviation from the requirements of the Plan, and the benefits of the deviation would substantially outweigh any detriments.

• No deviation from the regulations contained within this Redevelopment Plan may be granted without a showing that such variance or other relief can be granted without substantial detriment to the public good and will not substantially impair the intent and the purpose of the Plan.

• The planning board when acting upon applications for preliminary or minor subdivision approval or preliminary site plan approval shall have the power to grant such exceptions from the requirements for subdivision or site plan approval and design standards contained in the Plan as may be reasonable and within the general purpose and intent of the provisions for subdivision review and approval of this Plan, if the literal enforcement of one or more provisions of the Plan is impracticable or will exact undue hardship because of peculiar conditions pertaining to the land in question. No deviations may be granted under the terms of this section unless such deviations can be granted without resulting in substantial detriment to the public good and will not substantially impair the intent and purpose of the Redevelopment Plan.

The following deviations shall be considered prohibited and may only be permitted if the Plan is amended pursuant to the provisions of the LRHL to allow for such deviations from a redevelopment project.

• A use or principal structure in a district restricted against such use or principal structure;

• An expansion of a nonconforming use;

• A deviation from a specification or standard pertaining solely to a conditional use

• An increase in the permitted density;

• An increase in the permitted floor area ratio; or

• A height of a principal structure which exceeds by 10 feet or 10% the maximum height permitted in the Plan for a principal structure.

**Amendments**

This Redevelopment Plan establishes base requirements for a redevelopment project or projects on the properties which are governed by this plan, and permits the Town to engage in dialogue and contract with the owners of the properties and/or prospective redevelopers of the properties concerning such redevelopment. As such, amendments to this Redevelopment Plan may become necessary.

This Redevelopment Plan may be amended from time to time in accordance with the procedures of the LRHL.

**Certificates of Completion and Compliance**

Upon the inspection and verification by the Mayor and Council that the redevelopment of the Property has been completed, a Certificate of Completion and Compliance will be issued to the redeveloper and such parcel will no longer be deemed subject to this Redevelopment Plan.
XII. DEFINITIONS & SEVERABILITY

PREVIEW CENTER
A use which is open to the public and introduces redevelopment projects or potential redevelopment projects by designated redevelopers to the community. Preview centers are interactive education centers providing redevelopment project understanding and may include the display of models, renderings, and finishes (or a combination of same), meeting and event spaces, retail sales, and sales and leasing offices for a redevelopment project. Total gross floor area of sales and leasing offices shall not comprise more than 50% of the gross floor area occupied by the Preview Center.

Any terms not expressly defined by this Redevelopment Plan shall have the same definition set forth in the Code and Ordinances of the Town. Any word, phrase, clause, section or provision of this Redevelopment Plan that is found by a court or other tribunal with adequate jurisdiction to be invalid, illegal or unconstitutional shall be deemed severable and the remainder of the Redevelopment Plan shall remain in full force and effect.
